SUMMARY

Motivated B.Tech Computer Science (Cyber Security) student with hands-on experience in developing full-stack web applications and implementing practical software solutions. Skilled in Java, Spring Boot fundamentals, web technologies, REST API development, and version control. Built multiple projects involving authentication, database integration, and responsive user interfaces. Passionate about software development and actively seeking internship and full-time opportunities in Java Full Stack Development.

EDUCATION

Kakinada Institute of Engineering & Technology

Bachelor of Technology (B.Tech), Computer Science & Engineering (Cyber Security), CGPA: 7.58 Expected Graduation: 2027

Sri Chaitanya Junior College

Intermediate (MPC), CGPA: 8.66

Passed: 2023

Bhashyam Public School

SSC (10th Class), CGPA: 10.0

Passed: 2021

EXPERIENCE

Cybersecurity Virtual Intern

April 2026 – June 2026

EduSkills Foundation

- Completed virtual internship focused on cybersecurity fundamentals and network security.
- Studied cyber threats, vulnerabilities, and security best practices.
- Explored security controls and system protection techniques.
- Participated in practical cybersecurity learning activities supported by Palo Alto Networks.

5G Technology Learner

January 2026

Qualcomm Wireless Academy

- Completed introductory-level training on 5G technologies and wireless communication systems.
- Studied telecom fundamentals, network architecture, and emerging communication technologies.
- Explored real-world applications and use cases of 5G technology.

Python Programming Virtual Intern

February 2026 – March 2026

CodeSoft

- Developed Python-based mini projects using functions, modules, and OOP concepts.
- Practiced problem-solving and software development fundamentals.
- Improved coding proficiency through practical assignments and project implementation.

PROJECTS

E-Commerce Web Application | Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, JWT, Git, GitHub

- Developed a full-stack e-commerce platform allowing users to browse products, manage shopping carts, place orders, and track order status.
- Implemented secure JWT-based authentication and role-based access control for Admin and User functionalities.

- Built RESTful APIs using Node.js and Express.js for managing products, users, and orders.
- Integrated MongoDB database for storing product, user, and order information.
- Developed admin dashboard functionalities for product and order management.
- Tested API endpoints using Postman and maintained source code using Git and GitHub.

Blog Platform with Comments | Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, JWT

- Developed a blogging platform that enables users to create, edit, delete, and manage blog posts.
- Implemented JWT-based authentication and authorization.
- Built CRUD APIs for blog posts and comments using Express.js.
- Integrated MongoDB for storing user, blog, and comment information.
- Developed responsive user interfaces and improved user interaction through a structured comment system.

Online Shopping Platform | Technologies: HTML, CSS, JavaScript, Node.js, MongoDB

- Designed and implemented shopping workflows including product catalog browsing and checkout processes.
- Developed backend services and integrated database operations.
- Implemented user registration and login functionality.
- Built responsive web pages and optimized application usability.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Frontend: HTML5, CSS3

Backend: Spring Boot, Node.js

Tools & Platforms: Git, GitHub, Postman, VS Code, Eclipse IDE

Core Concepts: Object-Oriented Programming (OOP), REST APIs, Authentication & Authorization, CRUD Operations, Full Stack Development

CERTIFICATIONS

Cybersecurity Fundamentals – IBM (Feb 2026)

Cybersecurity Virtual Internship – EduSkills Foundation (Jun 2026)

Introduction to Cyber Security – Cisco Networking Academy (Sep 2024)

Introduction to the Threat Landscape 3.0 – Fortinet (Sep 2025)

Basics of Python – Infosys Springboard (Oct 2025)

Additional Learning Programs – Qualcomm Wireless Academy, Forage, Coursera

ACHIEVEMENTS

• Participated in technical hackathons and software development activities. • Developed multiple full-stack web applications demonstrating practical implementation skills. • Continuously learning Java Full Stack Development and modern web technologies.
